

# Capability Statement

Fire safety testing, maintenance & compliance — Sydney & Greater Sydney

## Overview

SupplyFire is an experienced, independent fire safety business providing compliance testing, scheduled maintenance, defect rectification, and is currently the authorised distributor for Protec fire alarm systems in NSW.

With experience managing over 200 service sites, SupplyFire offers reliable capacity, professional site conduct, and consistent, accurate reporting, available now to support fire protection companies needing overflow, regional, leave-cover or specialist subcontracting support.

## Services offered

- Authorised distributor for Protec fire alarm systems in NSW
- Routine scheduled maintenance and testing to AS 1851-2012
- Annual Fire Safety Statement (AFSS) related testing and reporting
- Defect identification, quoting and rectification
- Equipment replacement, parts and upgrades
- Installation of essential fire safety equipment
- Additional specialist services: passive fire, emergency lighting, sprinkler / hydrant systems

**Fire alarm programming expertise:** Protec, Ampac, Honeywell, Pertronics, Brooks, Vigilant and Cooper systems.

## Experience & track record

- Over 10 years' experience in fire protection testing, maintenance and compliance
- Independent site attendance across commercial, strata, industrial and residential properties
- Recently serviced over 200 sites
- Building types serviced: strata, commercial, residential, schools, factories and retail

## Insurance

- Public Liability: \$20,000,000 (expiry 17/06/2027)
- Statutory Liability: \$250,000 (expiry 17/06/2027)
- Certificates of currency available on request

## Service area & availability

- Sydney metro and Greater Sydney
- Immediate capacity, 5 days per week, vehicle and equipment ready

## Why work with SupplyFire

- Reliable, independent site attendance with minimal supervision required
- Clear, accurate documentation and defect reporting
- Professional conduct on client sites, protecting your reputation with your clients
- Fast turnaround on defect quotes and approved follow-on work
- Flexible capacity for overflow, regional coverage or leave cover
